Portfolio: <https://anusontarangkul.netlify.app/>

Summary:

Frontend Javascript and React developer looking to make an impact collaborating with talented developers. A self-motivated learner adept at solving complex problems and thinking creatively.

Technical Toolbox:

Javascript Skills: ES6, OOP, DOM, Scope, IIFE, Hoisting, Closures, Callbacks, Promises, jQuery, Node.js, Express.js, AJAX, JSON, APIs.

React Skill: Hooks, Components, JSX, Props, State, Handling Events, and Lifecycle Methods.

Developer Tools: Git, GitHub, Heroku, Visual Studio Code, Slack, and Chrome DevTools

Projects:

Travel Pins <https://github.com/anusontarangkul/travel-pins>

- Lead a team of two other developers to create a full stack social media application by organizing a work flow environment where team members played to their strengths and each member felt comfortable communicating and learning from each other.
- Customized a Mapbox API by adding layers through an onClick function so users can keep track of the countries they have been to.

Connected Politics <https://anusontarangkul.github.io/connected-politics/>

- Used the jQuery Ajax function via APIs from ProPublica to dynamically display upcoming bills so users can be informed about Congress.
- Integrated Twitter Developer tools to allow users to tweet about an upcoming bill, auto-populating the tweet with the URL of the bill.

Employment Buddy <https://github.com/anusontarangkul/employment-buddy>

- Designed a mobile responsive web app through CSS framework Bulma.
- Used Javascript to create a responsive login and signout page.

Work Experience:

Promoter, Wynn Las Vegas (*June 2018 - March 2020*)

- Planned and implemented digital marketing strategies that included informational videos and reviews.

Ecommerce Graphic T-shirt, Business Owner (*July 2016 - June 2018*)

- Designed a Shopify website and optimized sales on Amazon through Search Engine Optimization (SEO).

Securities Compliance Accountant II, DAC Bond (*June 2015 - July 2016*)

- Analyzed municipal bond financial statements for SEC compliance.

Education:

University of California, Berkeley MERN Full Stack Coding Bootcamp (*2020*)

University of Florida Master in International Business (*2015*)

University of Florida Bachelor of Science in Finance (*2014*)
